Apart from selling your books assiduously online, there are a number of other methods that may allow you to sell more books.

One is to present something away at no cost along with your e-book, equivalent to a precious bonus item. Or bundle a number of ebooks under one value, which lowers the worth for each e book in the event that they were offered separately.

An efficient technique for figuring out a worth is to send out a survey to your present customers. If these customers have already purchased an e book from you, ask for his or her opinion by way of price. Do that by creating a gross sales page for the new ebook, but don't embody a value on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to test out costs by making a variety of duplicate sales pages with totally different prices on every page. Make sure your sales copy is strictly the identical on every page,

and contains your promoting-deal with sentence. Then determine for each page the conversion ratio between guests to your website and gross sales of your book. This can tell you what your optimum worth is.

Finally, should you've written a book that solves a problem or presents a new technique, your guide will usher in both visitors and profits. So you'll want to write that promoting-handle sentence that sums up what drawback your ebook solves and what the advantages of your 1196 e book might be to the shoppers who buy it.
